August 21-22, 2025

Webinar

ABOUT GSPH 2025

Join us for the **4th Global Summit on Public Health** a pivotal two-day event taking place on, **August 21 & 22, 2025** under the theme "**The Future of Public Health: Innovation, AI, and Impact**". The Global Summit on Public Health is a major event where experts discuss and share knowledge on various aspects of public health, including disease prevention, health promotion, and global health policies. This webinar will bring together experts, practitioners, and passionate individuals to explore critical topics such as pandemic preparedness, mental health, climate change impacts on health, and the role of technology in healthcare.

Discover the latest innovations in healthcare technology, disease prevention, and health promotion. Engage in discussions about pressing topics like pandemic preparedness, climate change, mental health, and health equity. Join us to build a healthier, safer societies. Participate in shaping strategies and policies that impact millions globally.

Key Highlights:

1. **Global Health Challenges:** The summit addresses critical issues like disease prevention, health promotion, and global health policies.
2. **Traditional Medicine Integration:** Discussions often revolve around the integration and scaling up of traditional medicine systems within global health strategies.
3. **Best Practices and Innovations:** The summit serves as a platform for showcasing and documenting best practices and innovations adopted by different regions and countries to address public health challenges.
