

6th GLOBAL SUMMIT ON PUBLIC HEALTH

July 15th & 16th 2026

Webinar

Join us for the 6th Global Summit on Public Health, a pivotal two-day event taking place on July 15 & 16, 2026, under the theme:

“The Future of Public Health: Innovation, AI, and Global Impact.”

The Global Summit on Public Health is a leading international platform where experts, researchers, and professionals come together to exchange knowledge and insights on key public health challenges. The summit focuses on advancing disease prevention, strengthening health systems, promoting global health equity, and shaping effective health policies worldwide.

This conference will bring together distinguished speakers, practitioners, and passionate individuals to explore critical and emerging topics such as pandemic preparedness, mental health, climate change and its impact on health, digital health transformation, and the growing role of artificial intelligence in healthcare.

Participants will have the opportunity to:

- Discover the latest innovations in healthcare technology and public health research
- Engage in meaningful discussions on global health challenges
- Network with international experts and professionals
- Explore solutions for building resilient and equitable health systems

Join us to be part of a transformative dialogue and contribute to building a healthier, more sustainable future for all.

KEY HIGHLIGHTS:

1. Addressing Global Health Challenges Explore pressing issues such as disease prevention, health promotion, health equity, and evolving global health policies shaping the future.
2. Integrating Traditional & Modern Medicine Gain insights into the integration of traditional medicine with modern healthcare approaches to create more inclusive and effective health systems.
3. Best Practices & Breakthrough Innovations Showcasing successful case studies, research advancements, and innovative solutions that are improving public health outcomes globally.
